**Authorized by:**  
Senior Managing Director, Global Supply Chain  
**Sarah Krol**

**CERTIFICATE VALID FROM:**

**Sep 07, 2023 To Sep 06, 2024**

**AUDIT TYPE:**

Announced Audit

**AUDIT EXECUTIVE SUMMARY:**

Harvesting in Pier C was performed on field 5 during the audit. The harvest crew was composed of three employees, including the Farm Manager (David) leading the activities of carrots. The harvesting is mechanical where the machinery picks the carrots directly from the soil to an inclined conveyor where the leaves are taken-off, and the carrots are transported through a conveyor leading to a flatbed located beside the harvest machinery and containing wood bins. When wood bins are full, they are transported to the transfer station where the wood bins are transported temporarily until the whole field is harvested. The bins are transported by contracted trucks to the Chatham facility for further processing.

**Addendum(s) included in the audit:**

Not Applicable

**Product information for each product**

Product Group/Product Name	Observed Product	Seasonality	Country of destination for product
Carrots	Observed on the day of audit	From: July To: October	United States, Canada
Onions	Not observed but of a similar risk type to what was observed*	From: July To: October	Canada, United States

**CERTIFICATE VALID FROM:**

Sep 07, 2023 To Sep 06, 2024

**Product information for each product**

Product Group/Product Name	Observed Product	Seasonality	Country of destination for product
