Sep 01, 2026 To Aug 31, 2027

AUDIT TYPE:

Announced Audit

AUDIT EXECUTIVE SUMMARY:

Harvesting in Pier C took place in fields 1BLG and BLY2 for carrots on the day of the audit. The harvest crew comprised five employees, including the Farm Manager, who led the harvesting activities. This process is mechanical, using dedicated harvesting machinery, with the harvested product transported by conveyors to a wood bin and then directly to the transfer station. The harvesting is organized by field and cut, which ensures traceability. Employees interviewed during the audit demonstrated a good understanding of their activities and the food safety policies in place.

Addendum(s)/Module(s) included in the audit:

Not Applicable

Product information for each product

Product Group/Product Name	Observed Product	Seasonality	Country of destination for product
Carrots	Observed on the day of audit	From: July To: October	United States, Canada
Onions	Not observed but of a similar risk type to what was observed*	From: July To: October	Canada, United States

CERTIFICATE VALID FROM:
