Senior Managing Director, Global Supply Chain  
**Sarah Krol**

**CERTIFICATE VALID FROM:**

**Aug 27, 2024 To Aug 26, 2025**

**AUDIT TYPE:**

Announced Audit

**AUDIT EXECUTIVE SUMMARY:**

The Pier C Leamington site is situated in the heart of Leamington. During the growing season, the site receives onions from its farms and approved suppliers as needed. There are two lines in the packaging area - one for cleaning, grading, packing, and palletizing the onions and the other for packing small quantities or repacking. The wooden bins from the farm are transported by forklift and dumped to line 1. The product then goes through a hopper, is inspected on a conveyor to eliminate any bad quality products, and is transported to an inclined conveyor until an onion topper is used to be graded and sized. The product is then transported to a conveyor to be weighed and bagged in different presentations: 50 lbs, 3 lbs, 2 lbs, and 10 lbs. Approved suppliers bagged the 10 lb products on the day of the audit. The onion season has not yet started. During the audit, twelve employees were interviewed and worked in the packaging area.

**Addendum(s)/Module(s) included in the audit:**

Not Applicable

**Product information for each product**

Product Group/Product Name	Observed Product	Seasonality	Country of destination for product
Onions	Observed on the day of audit	From: July To: October	Canada
